

## Electronic Computing Scale SL-2200

### Microprocessor Speed and Accuracy at an Affordable Price

The TEC SL-2200 Series offers state-of-the-art electronics in a durable, compact enclosure. The microcomputer provides immediate and highly accurate weighing and price calculation. Both the operator and customer displays provide easy to read transaction data. More than just a weight device, the SL-2200 allows both weighed and non-weighed entries for multiple item accumulation.

### Computer Speed and Accuracy

- Microprocessor ensures both quick and accurate calculations.
- Load Cell Call Module eliminates moving parts and measures weight electronically.
- Accumulation of several items increases speed and customer through-put.
- Flashing Tri-mark alerts operator of accumulated total in memory.
